

HEART CENTERED LEADERSHIP

Coach Certification Training Program

EVERYONE'S **WORLD**

Leading From The Heart

MAKING TRANSFORMATION SIMPLE

Heart Centered Leadership (HCL) program is based on a holistic approach. It is designed to train you in coaching skills, specifically in coaching for Leadership Development both at the personal and corporate level.

We aim to empower all participants to engage their highest potential through coaching.

Each participant will receive personalised support, all necessary tools and practice to successfully coach their own clients.

HCL is approved by Accredited International Coach Federation (ICF) and Continuing Coaching Education (CCE).

What Makes Our Course Different?

HEART CENTERED LEARNING

Our program was designed from a deep calling to create a heart centered holistic program that recognises the value of each individual participant. We have drawn on systems thinking to build a course focused on humanity and the greater good.

We look at Coaching as the bridge between current reality, the Now; and the reality we desire, the Possibility.

LEARNING SMALL GROUPS

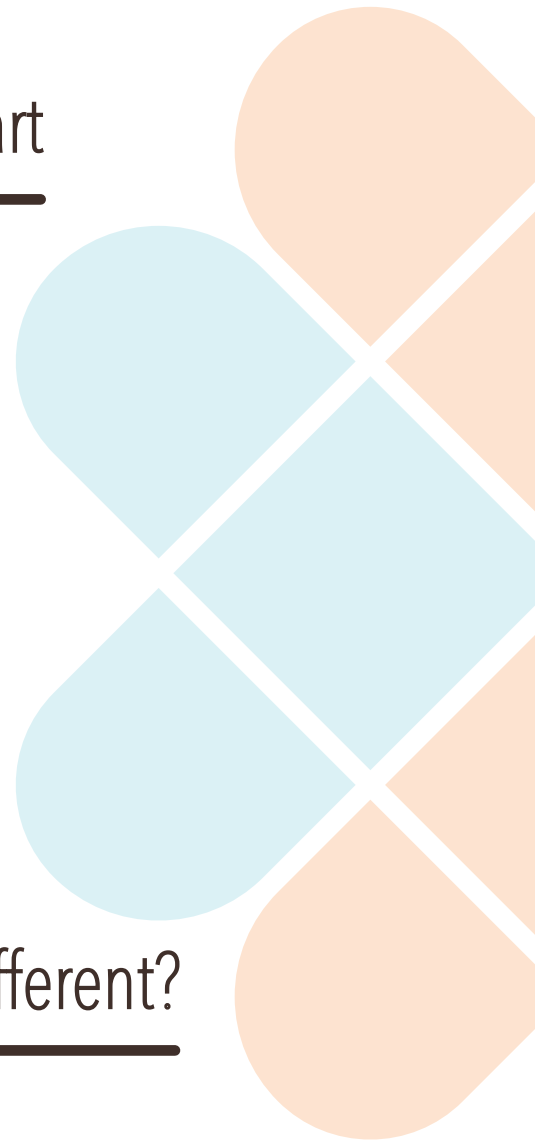

We are interested in quality not quantity. You will be in a class of no more than 20 to 25 people. This will allow you to connect more deeply with your classmates and to accelerate your learning.

Once you complete our program you can either use the learning to enrich your management and leadership competences or build a career as a Professional Coach.

CREATING MEANING IN LIFE

Once you complete our program you can either use the learning to enrich your management and leadership competences or build a career as a Professional Coach.

You might be a manager wanting to learn coaching to work for effectively with your team. You could be interested in taking up a new career. Either way, our approach will help you make a difference in the lives of others.
